

We act as the reliable eyes of our customers.

The iron and steel and nonferrous metal and their products that METAL ACT is dealing in are used in various ways in many fields, including those of automobiles, motorbikes, construction machines, building and civil engineering materials and housing equipment.

- We aim to be an idea-proposing company who can keep up with the changes of the times. For this aim, we make it our motto to grasp the ever-changing needs quickly and precisely, provide information useful for our customers to cultivate their untapped demands, satisfy the needs of our customers by utilizing our trading-firm function, and conduct elaborate sales activities.
- We are bringing up human resources who can acquire broader knowledge of various fields, in addition to product knowledge, and create high added value.
- We aim to be the reliable eyes of our customers in the rapidly changing environment.
